CSUN. | CALIFORNIA STATE UNIVERSITY NORTHRIDGE

4-15-19

To Whom It May Concern:

This letter is to certify that the film *"El Mozote"* is an official senior film project here in the Department of Cinema and Television Arts at California State University, Northridge.

Director Jasmine Galdamez and the main crew including producers Tristan Probert and Ani Vardanyan are members of the CTVA 452 Senior Film Project class. This film project will not be used for commercial purposes whatsoever and is part of the requirements needed to fulfill the Bachelor of Arts Degree in Cinema and Television Arts (Film Production Option).

Any assistance you can provide to our hard working and talented student filmmakers is highly appreciated. If you have any questions please don't hesitate to call upon me. I may be reached at nate.thomas@csun.edu or 818-677-3162.

Sincerely,

Professor Nate Thomas
Head

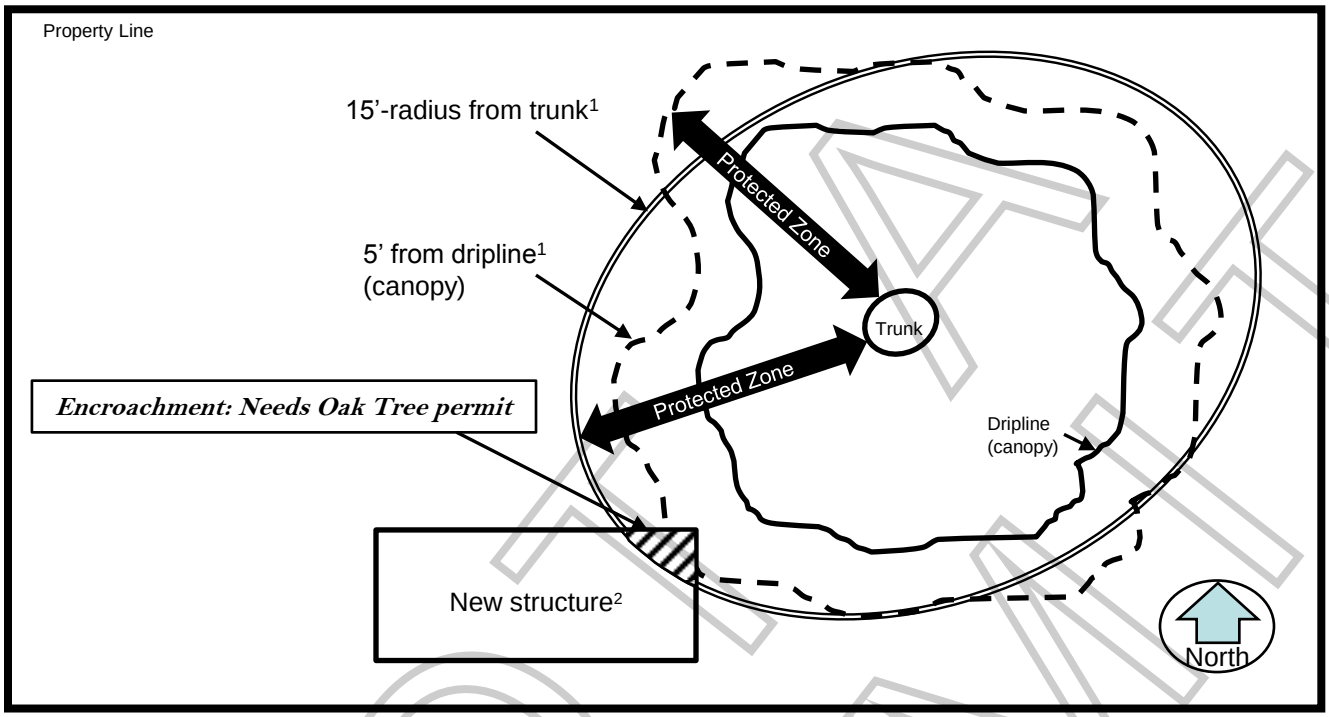
Oak Tree Diagram



(Oak trees at least 8 inches in diameter at 4.5 feet above natural grade or multi-trunk oak trees with a combined diameter of 12 inches are protected)

1- Oak tree protected zones are the areas 15 feet from trunk and 5 feet from dripline (canopy). Show BOTH on site plan. Encroachment occurs within either area.
2- Any construction, improvement, and demolition (including but not limited to structures, walls, fences, grading, paving, irrigation, landscaping, balconies, storage, and required parking) must be located outside the oak tree protected zones.
3- Show the oak tree protected zones, whether the tree is on your property or outside your property (including the public right of way.)
4- An arborist report may be required to determine if there is an encroachment.
